

QUALITY POLICY

- ❖ We combine the existence of our company in global competition with the principle of excellence in all business activities.
- ❖ We adapt the company to our customers. We want to be a company that works well with.
- ❖ We apply the principle of higher added value for the customer, ie we provide customers with solutions to their problems.
- ❖ We see the creation of conditions for high performance mainly in the focus on processes.
- ❖ We consider human resources management to be a crucial element for the company's success in the coming period.
- ❖ We consider the quality of our processes as a basic and permanent principle of creating safety for our employees and partners, as well as our products, which are part of the safety of our customers' products and their users.
